Authors

- The first author is responsible for the abstract content and is the contact person for communication purposes and dissemination of information to co-authors
- First author and co-authors need to provide their: full name and affiliation
- The first author may nominate a co-author to present an abstract in his/her place
- Ensure that all authors complete the “Conflict of Interest” statement identifying any financial interest in products or processes involved in their activities

Submission

- Abstract submission platform will remain open until **19 January 2022** and abstracts might be edited until this time, provided they are in ‘Draft’.
- To submit the abstract each submitter needs to click “Finish Submission” to complete the process. Abstracts that are in “Draft” status after submission deadline will not be considered for revision.
- An abstract should be submitted only once: resubmission is not permitted
- Each abstract submitter will be required to create an account at the submission platform
- There are no limitations on the number of abstracts that an individual can submit.

Reviewing

All submitted abstracts will be sent for peer review by a panel of experts in the field of transplantation. Each abstract will be reviewed and scored by at least three independent reviewers. The scores will then be submitted to the members of the Scientific Committee, who will determine which abstracts are accepted and for which format.

The date and time of each presentation will depend on the session to which the abstract is allocated.

Notification & Registration

Corresponding authors will be notified of acceptance of their abstract by **25 February 2022**.

First author or co-author indicated as presenting author should complete their registration to the ITS Meeting 2022 by **31 March 2022**.

Only abstracts of presenting authors who have registered for the meeting and have paid their registration fee by indicated date will be scheduled for presentation.
