

NEW ONLINE WORKSHOP SERIES: INDUCTION THERAPY IN KIDNEY TRANSPLANTATION

#1 WORKSHOP'S TITLE: Personalised immunosuppression in induction therapy

DATE & TIME: 26 October 2023, 17:00 – 18:30 CEST

Rationale and description

In this new online workshop series, selected centres in Italy, the United Kingdom, and France will discuss their approach to induction therapy and present clinical cases for discussion with the audience. Through interactive lectures and engaging case study discussions, the workshops will highlight the importance of induction treatment for the overall success of transplantation and will provide practical guidance on how to approach specific scenarios.

The first workshop in this series, “Personalised immunosuppression in induction therapy”, will be hosted by the Department of Nephrology and Dialysis Unit, Policlinico of Milan, Italy.

Moderators

Raj Thuraisingham | London, United Kingdom
Luca Toti | Rome, Italy

Panellists

Carlo Alfieri
Maria Campise
Giuseppe Castellano
Evaldo Favi
Anna Regalia
Simona Verdesca
