

NEW ONLINE WORKSHOP SERIES: INDUCTION THERAPY IN KIDNEY TRANSPLANTATION

#3 WORKSHOP'S TITLE: **The role of induction in antibody-incompatible (ABO-HLA) kidney transplantation**

DATE & TIME: **21 May 2024, 17:00 – 18:30 CEST**

Rationale and description

This series of online workshops aims to share and discuss best practices in induction therapy in kidney transplantation. Top centres in three countries – Italy, United Kingdom, and France – will host these engaging, interactive workshops that will provide participants with advanced knowledge on the topic as well as practical advice through the discussion of clinical cases.

The third and final workshop in this series, “The role of induction in antibody-incompatible (ABO-HLA) kidney transplantation”, will be hosted by the Necker Hospital in Paris, France.

Moderators

Raj Thuraisingham | London, United Kingdom
Luca Toti | Rome, Italy

Panellists

Carole Burger
Christophe Legendre
Marion Rabant

SCIENTIFIC PROGRAMME

17:00 – 17:05	<i>Welcome and introduction to the workshop</i>	Raj Thuraisingham Luca Toti
17:05 – 17:35	<i>Case study presentation: Thrombotic microangiopathy in ABO-incompatible transplantation + Q&A</i>	Carole Burger Marion Rabant
17:35 – 17:50	<i>Lecture: Overview of induction in antibody-incompatible transplantation</i>	Christophe Legendre
17:50 – 18:20	<i>Case study presentation: High immunological risk transplantation: ‘Who is doing what?’ + Q&A</i>	Christophe Legendre Marion Rabant
18:20 – 18:30	<i>Closing remarks</i>	Raj Thuraisingham Luca Toti
