Learning Objectives

As a reflection of advanced techniques for living donor/recipient surgery with live broadcasting and the latest updates in transplant nephrology, this masterclass training program includes;

Surgery Section

- Informed consent living donor nephrectomy
- Endoscopic living donor nephrectomy techniques
- Robotic and hand assisted retroperitoneoscopic donor nephrectomy procedure
- Surgical technique and challenges
- Mini incision living donor nephrectomy
- Single port laparoscopic donor nephrectomy
- Laparoscopic donor nephrectomy with vaginal extraction procedure
- Surgical complications
- Laparoscopic hand assisted donor nephrectomy
- Laparoscopic and robotic kidney transplantation procedure
- Pediatric kidney transplantation
- Artificial intelligence in kidney transplantation

Nephrology Section

- Transplantation Immunology
- Allograft Rejection
- Infection & Malignancy
- Living Donor
- Post-Transplant Follow-Up
- Strategies to Increase the Donor Pool
- Interactive Practical Workshop

Methodology

To improve theory by learning through experience and educational technology;

- Theoretical lectures
- Case workshop
- Live surgery - live broadcast from 3 hospitals
- Interactive discussions

SPONSORSHIP OPPORTUNITIES

Exhibitors & Supporters of the 7th Kidney Transplantation Masterclass will be able to exploit their presence to the fullest by generating unique leads to expand their business and raise brand visibility. Most importantly, by joining hands with the Turkish Transplant Foundation, our partners will contribute to the education of transplant professionals in all fields. Please note that if any elements of the sponsor package do not suit your current objectives, we will be delighted to discuss how we can assist you in tailoring a package to your needs, ensuring that your investment leads to a successful and rewarding experience.

Why support the 7th Kidney Transplantation Masterclass

Donor Surgery Masterclass training program is the most influential and comprehensive event of its kind with participants in attendance from over 30 countries every year. The masterclass serves as the leading platform to exhibit best practices and science, introduce the latest trends in abdominal organ retrieval-liver splitting and machine perfusion, present scientific advances, offer education and networking opportunities at an international level.

What to expect from participating at the 7th Kidney Transplantation Masterclass?

- An unique platform to promote your brand to a target market
- You can take advantage of flexible opportunities to create an exclusive package

You will also benefit following

- Being a part of ITN's unique platform that brings together the transplant experience of developed countries with the demands of developing countries in this field.
- Expand your network as an important player in the sector.
- Connect with leaders and masters in transplant medicine.
- See the latest trends in kidney transplant surgery and transplant nephrology and envision the future
